## Brief introduction

Hi, I'm a front-end developer who can code all day without getting tired.

I'm passionate about learning new technologies and creating valuable applications that help others in their work. I'm known as a team player who enjoys collaborating and supporting my colleagues. Over the past year, I've dedicated myself to mastering front-end web development, and I'm confident that my skills can meet your requirements.

## Experience

Front-end Developer Intern - CyberSoft Company

June - September 2025

- Support the development and maintenance of existing software applications.
- Optimized website performance and fixed UI bugs.
- Collaborated with backend developers to integrate APIs.
- Proposed and implemented improvements to enhance user experience.

# Projects

## Movie Booking Ticket

Develop a web application for purchasing movie tickets and managing theaters

**Technologies used:** ReactJs, Create React App, Styled Component, React Router, Redux, Antd, BootStrap.

**Functions include:**

- Improve performance by optimizing build file size analysis
- Fully responsive website
- Separate the private and public routes
- Admin dashboard for managing theaters, movies, and showtimes.
- Declarative routing with React Router v6.
